

Website/App Compliance Checklist Before Go-Live (DGePay)

1. Live ID Activation

A **Live ID will not be generated** until all business compliance requirements are fulfilled and the **website/app is fully live and functional**.

2. Checkout Compliance

At the **checkout page**, a **tick box ()** must be available for customers to confirm acceptance of:

- Terms & Conditions
- Refund Policy
- Privacy Policy

These items must contain **active hyperlinks** and must be **clicked by the customer before completing the payment**.

3. Business Identification Disclosure

As per the **Digital Commerce Policy 2021** published by the Ministry of Commerce (Clause 3.1.12), the website/app must display **at least one** of the following business identification details:

- Trade License Number
- VAT Registration Number
- E-TIN
- Unique Business Identification Number (UBID)
- Personal Retail Account Number (PRA)

4. Business Address Verification

- The **business address on the website/app must match the address mentioned in the Trade License**.
- Any **mismatch in address will not be accepted**.
- If there is any **future plan to change the business address**, **DGePay must be notified in advance**.
- The **full address and contact information must be displayed on the homepage**.
- The **registered business address must be clearly mentioned on the website/app**.

5. Mandatory Website Pages

The following pages must be **available and linked in the footer of the website/app**:

- About Us
- Terms & Conditions
- Refund Policy
- Privacy Policy
- Contact Us

6. Payment Gateway Reference

A **DGePay payment gateway reference/logo** should be placed in the **website/app footer** to indicate the integrated payment gateway service for **customer awareness and payment verification purposes**.
